

## MORE SUCCESS BY THE GLASS.

The Optikeg.

Satisfying the most discriminating of tastes has never been easier. The Celli Go-System and Optikeg from Franke Blefa are ideally suited for prosecco, wines and sparkling wines – in the gastronomy sector, for example, or for catering operations. With its low tare weight, its practical rubber bottom skirt, and its loss-proof disposable line integrated in the top, the Optikeg guarantees perfect dispensing performance in its most elegant form. And of course it goes without saying that the Optikeg features the usual Franke Blefa quality.

Optikeg and Celli Go-System form a portable dispensing system that follows the “plug & play” principle. It takes up much less space than the comparable quantity of prosecco, wine or sparkling wine in bottles. Whether for a party service, on holiday or

in the gastronomy sector – the Optikeg with the Celli Go-System is the optimal solution wherever space is at a premium and the pleasure of an outstanding drinking experience is desired.

With the Optikeg, the Celli Go-System is ready to use immediately. No need to install a complicated dispensing system, no need to haul cylinders around. Develop new markets by serving quality prosecco, wine or sparkling wine by the glass where it would have been too much trouble for you in the past.

Optikeg and Celli Go-System – an innovation that addresses every issue: easy handling, cleaning and filling on standard filling machines. In sum: the optimum system for your market success.

## THE OPTIMAL LOGISTIC SOLUTION

### STANDARDIZED PACKAGING OPTIKEG

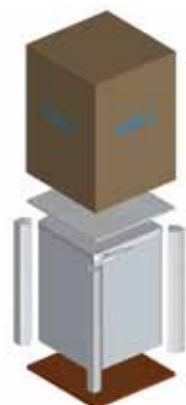

Loading capacity Optikeg,  
3 x 5 kegs per pallet

The individual solution.

# OPTIKEG

The ideal keg for the system.

## A REVOLUTIONARY SYSTEM OPENING NEW MARKET OPPORTUNITIES.

The Celli Go-Counter provides many advantages. The “plug & play” feature enables you to have an immediate access to draft prosecco, wine and sparkling wine of the highest dispense standard.

- New insulation and temperature control technologies enable the cooler to keep the temperature consistent.
- The standard storage time of the keg on tap is extended for up to 3 weeks.
- The “system highlight” is the innovative disposable beverage line that guarantees first-class quality and complies with accepted quality standards.
- You do not have to cope with regular cleaning of the dispensing equipment and are not troubled with high maintenance costs any longer.
- The patented Celli Go-Counter is suitable for various catering applications, in particular prosecco, wine or sparkling wine dispensing.
- The Celli Go-Counter defines “flexibility in draft dispensing”.

## THE OPTIMAL SOLUTION PROVIDING A LOW COST, EFFICIENT, MAINTENANCE FREE DRAFT BEVERAGE SYSTEM.

The Franke Blefa Optikeg has several features that make it the perfect fit for the Celli Go-Counter. Optikeg is the best solution for the system overall.

- Light weight, approximately 3.8 kg for a keg with 20.4 L capacity.
- Easy as well as noiseless handling thanks to rubber skirts.
- Specially designed and integrated dispensing line that facilitates stacking and transport.
- Smart stainless steel manufacturing and powerful Franke quality performance.

The Franke Blefa Optikeg offers you various unbeatable advantages. Together with the Celli Go-Counter this solution paves the way to your lead in business. Take care of your dispensing in the gastronomy sector - with fast, easy, reliable and clean operation. Serve valuable prosecco, wine or sparkling wine for your guests to taste in a congenial ambience.

With Optikeg, you always ensure consistently high beverage quality for an especially long time - right to the last drop.
