COPPER

MAKE IT WONDERFUL

FRANKE
HEALTHY & TASTY

The quality of the tap water in the UK is good, but you only want the best for yourself. Franke filters the water by using the Pro M filter which removes various impurities such as hormones, pesticides and particles from the water supply. The DuoBlend System leaves the most important minerals in the water. This way you can enjoy healthy and tasty water without worrying!

SAFE

You always want to pay attention when using a 100 degree tap. Franke’s Instant Boiling Water taps are designed to operate as easily and safely as possible. The child safety mechanism allows you to be in control at all times. The insulated spout design ensures you won’t burn yourself on the spout. The system also has a holiday mode adding extra safety.

AFFORDABLE EASE

Choosing a Franke Instant Boiling Water tap means getting more for less. Where previously you needed various appliances and taps to achieve the same functionality, you can now get all this in one tap. With a simple control you can get cold, warm, boiling or filtered water just as easily.

ENERGY

Franke tanks are energy efficient and only use an average of 10 pence per day due to the use of high quality insulation materials such as Aerogel. This insulation method ensures a low energy consumption and therefore an economical appliance. The tank is also maintained by the Pro M filter fitted as standard. This prevents any pollution and keeps the tank working efficiently with a longer lifespan.

A GOOD CHOICE

Franke Minerva Instant Boiling Water Taps

2 YEAR WARRANTY

We believe in the quality of our instant boiling water taps, which is why we offer a 2 year all inclusive guarantee.

3 NEW COLOURS

INDUSTRIAL COLOURS

Make a statement in your kitchen with one of our three new industrial colours. The taps are solid stainless steel with a long lasting coating keeping the structure of the stainless steel visible. Will you choose the tough Industrial Black, the stand out Champagne Gold or the on-trend Copper? With a choice of 2 models; Mondial L Spout or Helix J Spout, there is always a tap that fits your kitchen style.
**TOUCH CONTROL**

The Minerva 4-in-1 series has electronic touch control. When the ring lights up, it indicates exactly which setting the tap is on.

The touch button is easy and safe to use, and the electronic control will automatically switch to the child safety mode when not in use.

---

**3 MODELS**

**TOUCH CONTROL**

Press and hold Disperses water until you let go
2x 30 seconds boiling / 15 seconds filtered
