

PRESS RELEASE**Date: July 2016****Franke adds the chic, contemporary Smart tap to its popular Pro-Value range**

Franke's new Smart tap is the latest contemporary design to be introduced into its popular Pro-Value range, giving you exceptional Franke quality and style at prices to suit most budgets.

It's available in Chrome for an RRP inc VAT of £179 and SilkSteel PVD at an RRP inc VAT of £199 and comes with the assurance of a five year working parts guarantee and a one year guarantee on finish.

The chic monobloc tap is a compact 200mm in height, so it's ideal for sinks underneath a window or will fit neatly under wall cupboards. The single lever operation means you can achieve a precise flow and temperature control with one hand, leaving a hand free for other tasks.

The distinctively-designed tap features a stylish cylindrical base and long-incline, gently curved spout. Fitted with a built-in ceramic disc valve mechanism and a perlator for a champagne-like water flow, the tap has a spout reach of 211mm and fits a standard 35mm tap hole.

Franke's best-selling Pro-Value range gives you access to Franke's trusted quality at affordable prices. The range includes 17 taps, 44 sinks, four waste disposal units and co-ordinated accessories, in a wide range of designs and finishes to suit any kitchen scheme. Further information is available from: 0161 436 6280 or www.franke.co.uk
