BESPOKE CLINICAL WASHBASINS

Discover VariusMed from Franke

VariusMed multiple washbasins are completely coated with gelcoat. The hygienically smooth surface effectively counteracts the adhesion of bacteria and micro-organisms.

VariusMed SU

Made from Miranit granite composite, with an alpine white gelcoat finish, the clean lines and stylish designs of the Franke VariusMed solid surface basins are suited to provide a stylish, clean and hygienic solutions for sanitary rooms in healthcare environments.

VariusMed SU clinical basins are flexible and hygienic. Manufactured from Miranit granite composite material with a non-porous smooth surface it is the perfect choice for healthcare facilities including hospitals, surgeries and health clinics.

Designed with an ergonomic bowl shape, the VariusMed SU includes a large inside radii, with a slight rearward slant to prevent water from dripping off the basin on to other surfaces or the floor, therefore keeping hygiene to a maximum.

Completely customise your design to fit your project specification. Specify number of seamlessly moulded bowls (3 maximum), basin length, bowl distance and shape in order to suit any installation. All VariusMed basins are complete with an integral back panel with integrated brackets and fixing materials for ease during installation.

Easy to clean, hygienic material

- Hygienic surface finish, which is resistant to temperatures up to 80°C
- Smooth, pore-free and high-gloss gelcoat material
- Cast in a single mould without any seams or joints

Customisable and bespoke options

- A maximum of 3 basins
- Bespoke shapes and lengths to fulfil specification requirements (Max. length 3.6 metres, min. bowl centre distance 700mm)

Hard-wearing

- Impact resistance and shatter-proof
- A fracture-resistant compound made of natural minerals and unsaturated polyester resin

Clean modern designs

- Designed with a large inside radii, with slight rearward slant to prevent dripping water
- Ergonomic bowl shape making cleaning easy

VARIUSMED SCRUB UP

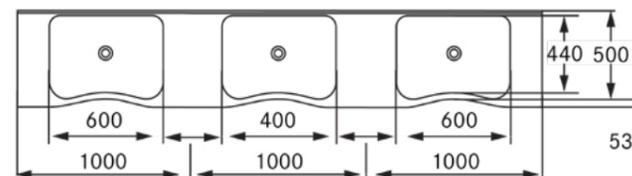

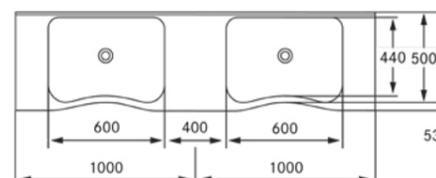

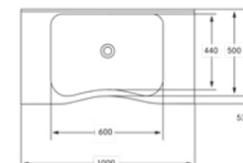

Made from Miranit resin bonded mineral material, with an alpine white gelcoat surface finish that's smooth, and temperature resistant up to 80°C The seamlessly moulded and pore-free surface make the Miranit basins extremely hygienic and easy to clean, whilst the fracture proof robust material makes them ideal for even high usage areas. The product has a large inside radii, with significant rearward slant to prevent dripping water. Choose from any length up to 3.6m and incorporate up to three washbasins with a minimum centre distance of 700mm. The washbasin is fully coated all round with a high-gloss gelcoat layer, making it extremely hygienic and perfect for use within healthcare environments.

Colour: Alpine white
Without overflow
Washbasin thickness: 25 mm
Dimensions (W x H x D): 700 - 3200 x 230 x 550mm
Bowl dimensions (W x H x D): 645 x 205 x 440mm

ANMW0030	203.0590.629	VariusMed single washbasin 1000mm
ANMW0031	203.0590.632	VariusMed double washbasin 2000mm
ANMW0032	203.0590.633	VariusMed triple washbasin 3000mm

Optional Accessories

ZANMW901	203.0498.162	Strainer waste valve DN 32

BESPOKE MULTI-PURPOSE BASINS

Discover VariusMed from Franke

VariusMed multiple washbasins can be completely coated with gelcoat if required. The hygienically smooth surface effectively counteracts the adhesion of bacteria and micro-organisms.

VariusMed MP

Made from Miranit granite composite, with an alpine white gelcoat finish, the clean lines and stylish designs of the Franke VariusMed solid surface basins are suited to provide a stylish, clean and hygienic solutions for sanitary rooms in healthcare environments.

The material, surface and design make VariusMed MP basins the ideal working medium in medical facilities. The pore-free, smooth gelcoat surface, is dirt repellent and easy to clean. The material features a high resistance to impact and abrasion, high stability towards changes in water temperature and resistance to chemical stresses such as those caused by the use of disinfectants. A front splash-guard edge across the entire width of the multi-purpose basin prevents water from dripping and therefore keeps hygiene to a maximum.

Completely customise your design to fit your project specification. Specify number of seamlessly moulded bowls (3 maximum), basin length, bowl distance, shape and splash guard edge in order to suit any installation. All VariusMed basins are complete with an integral back panel with integrated brackets and fixing materials.
