

The breakthrough innovation of 2021:
Franke IndividualMilk Technology

Separate milk systems guarantee pure, high-quality milk in every cup

Vegan milk, such as soy or oat milk, is cooled and stored, ready for use, in a separate container

Dairy milk is cooled and stored, ready for use, in a generously sized 10-liter container

MAKE IT WONDERFUL

Unique coffee experiences with any variety of milk – all kept absolutely separate, right into each cup

One-of-a-kind, outstanding coffee with smart technology – the latest groundbreaking innovation from Franke, the Specialty Beverage Station (SB1200), and now, Franke IndividualMilk Technology. With this new technology, you're offering your customers more than just their choice of milk. You're giving them a guarantee. Because whichever milk they choose, it is prepared completely separately from other milk in the same machine – purely, from storage through to cup.

The right beverage, the right milk, and the right coffee moment for every customer: Franke IndividualMilk Technology increases the variety of beverages you can offer while letting you tap into the current and growing trends toward lactose-free milk and vegan nutrition. Get on board with this unique innovation, boost your customers' satisfaction, win their trust – and increase your profits.

It's all about choice: Pure coffee enjoyment with any variety of milk

- ✓ Variety of milk alternatives – quality and reliability guaranteed.
- ✓ Free of cross-contamination – each milk choice prepared absolutely separately, from containers, valves and lines, through hot/cold processing units, to spouts.
- ✓ Expanded range of beverages – any choice of milk for every kind of coffee beverage.
- ✓ Perfect temperature profiles – great coffee enjoyment for both hot and cold beverage creations.
- ✓ Individualized milk foam texture and consistency profiles – true, high-quality foam for every beverage with every milk, with Franke FoamMaster™ technology.

Clear and simple: A single tap on the intuitive and user-friendly touch screen makes milk choice easy, just like choosing an ideal hot or cold coffee beverage.
