# GREAT COFFEE MOMENTS WITH YOUR MILK CHOICES

**FRANKE**

MAKE IT WONDERFUL

## Unique coffee experiences with any variety of milk – all kept absolutely separate, right into each cup

One-of-a-kind, outstanding coffee with smart technology – the latest ground-breaking innovation from Franke Coffee Technologies: the Specialty Beverage Station (SB1200), now featuring Franke IndividualMilk Technology\*. With this new technology, you're offering your customers more than just their choice of milk. You're giving them a guarantee. Because whichever milk they choose, it is prepared completely separately from other milk in the same machine – purely, from storage through to cup.

The right beverage, the right milk, and the right coffee moment for every customer: Franke IndividualMilk Technology\* increases the variety of beverages you can offer while letting you tap into the current and growing trends toward lactose-free milk and vegan nutrition. Get on board with this unique innovation, boost your customers' satisfaction, win their trust – and increase your profits.

## It's all about choice: Pure coffee enjoyment with any variety of milk

- ◆ Variety of milk alternatives – quality and reliability guaranteed.
- ◆ Free of cross-contamination – each milk choice prepared absolutely separately, from containers, valves and lines, through hot/cold processing units, to spouts.
- ◆ Expanded range of beverages – any choice of milk for every kind of coffee beverage.
- ◆ Perfect temperature profiles – great coffee enjoyment for both hot and cold beverage creations.
- ◆ Tailored milk foam texture and consistency profiles – true, high-quality foam for every beverage with every milk, with Franke FoamMaster™ technology.

Clear and simple: A single tap on the intuitive and user-friendly touch screen makes milk choice easy, just like choosing an ideal hot or cold coffee beverage.
