Delicious coffee moments with any choice of milk – Franke wins the Tophotel Star Award

Tophotel magazine has awarded IndividualMilk Technology, the latest technological innovation from Franke Coffee Systems, with the Star Award in silver. In a readers' poll, the Star Award highlights innovative products and services in the hotel supply industry.

Franke IndividualMilk Technology expands the variety of beverages and makes it possible to participate in the growing trend for lactose-free milk and vegan nutrition. With this new development, not only can different types of milk be offered, but at the same time it can be relied upon that the milk is conveyed purely by type and completely media-separated – right into the cup.

"We are delighted to have won the Tophotel Star Award once again for our products and technologies. The award underscores Franke Coffee Systems' competence in innovation and shows that we are always able to set technological standards in the industry when it comes to developing coffee machines," says Peter Mütsch, Managing Director of Franke Coffee Systems GmbH.

About Franke Coffee Systems

Franke Coffee Systems, a division of the Franke Group, is a technology and solution provider of fully automatic coffee machines for professional coffee making needs. Our passion for the best coffee quality motivates us to elevate the customer experience through sharing state-of-the-art innovations and profound industry expertise. Learn more at coffee.franke.com
