## The X-Stream offers:

### High brand visibility at the bar:

- Brand positioning & communication at the point of sale;
- Customer focused;
- Theatre at the bar;
- Exclusive treatment for customers ordering your draught beer;
- New experience when ordering draught beer;
- Additional marketing communication possible.

### Support in quality programs:

- Low glass temperature supports “recommended drinking temperature” claim;
- No use of CO2 or other harmful gasses;
- Freezing by ambient air;
- Ice crystals on the outside of the glass;
- Non interfering with pouring quality of your glassware;
- Glass specific, protecting your investment.
