VARIUSmed

Multiple washbasins for medical facilities

CUSTOMIZED ERGONOMICS AND HYGIENE

- The seamless VARIUSmed multiple washbasins are specially designed for use in OR washrooms.
- Their variable number of basins (1 to 3) and dimensionally accurate production provide washroom facilities customized to the respective building.
- Ergonomically shaped large bowls, with a reduced extension in the faucet area, provide comfortable conditions to doctors and hospital staff for conveniently washing and disinfecting hands and arms.
- The geometry of the washbasins, with a slight slant towards the wall, prevents water dripping.
- The resin bonded mineral material is completely enclosed by a pore-free, smooth outer skin.
- The Alpine white Gelcoat coating is resistant to chemical and physical stresses, such as the use of disinfectants, and has excellent cleaning properties.
- Special repair sets make it easy to repair surface damage.

VARIUSmed multiple washbasins are completely coated with Gelcoat. The hygienically smooth surface effectively counteracts the adhesion of bacteria and micro-organisms.
VARIUSmed multiple washbasin
made of MIRANIT resin-bonded mineral material, with a non-porous smooth surface (temperature resistant up to 80°C) coated all around. Alpine white colour.
With up to 3 seamlessly integrated bowls, without overflow. Variable bowl distance, centre distance of bowls at least 700 mm. Ergonomic bowl shape with large inside radii, with slight rearward slant to prevent dripping water.
Integral back panel with integrated brackets and holes for fixing. Rear contoured edge. Including fastening materials.
Dimensions (W x H x D): 700 - 3200 x 230 x 550 mm
Bowl dimensions (W x H x D): 645 x 205 x 440 mm
Washbasin thickness: 25 mm

Customized fit to building specifications
Detailed specifications such as installation type and basin spacing, etc. are detailed on planning sheets for each specific project (to be requested from Franke).
