

# VARIUSmed

Multiple washbasins for medical facilities

## CUSTOMIZED ERGONOMICS AND HYGIENE

- The seamless VARIUSmed multiple washbasins are specially designed for use in OR washrooms.
- Their variable number of basins (1 to 3) and dimensionally accurate production provide washroom facilities customized to the respective building.
- Ergonomically shaped large bowls, with a reduced extension in the faucet area, provide comfortable conditions to doctors and hospital staff for conveniently washing and disinfecting hands and arms.
- The geometry of the washbasins, with a slight slant towards the wall, prevents water dripping.
- The resin bonded mineral material is completely enclosed by a pore-free, smooth outer skin.
- The Alpine white Gelcoat coating is resistant to chemical and physical stresses, such as the use of disinfectants, and has excellent cleaning properties.
- Special repair sets make it easy to repair surface damage.

VARIUSmed multiple washbasins are completely coated with Gelcoat. The hygienically smooth surface effectively counteracts the adhesion of bacteria and micro-organisms.
