

AQUARIUS - The water carrier

Commercial durability meets elegant European design

- ☑ Touch-free
- ☑ Programmable

AQUARIUS: Touch-free commercial faucets

are made for use in high demand, heavy traffic areas, where durability, reliability, and vandal resistance matter most. Aquarius faucets are easy to install, offer **plug-in (AC) or battery (DC)** power options, and contain highly intelligent electronic controls with programmable sensor ranges, run times, and automatic purging to eliminate stagnant water. Several helpful reporting features can also be accessed via an **optional** handheld controller, AC01-005. All faucets are manufactured from corrosion resistant Type 316 stainless steel in a choice of two finishes: **satin or polished**. 5 LPM (litre per minute) /1.32 (gallons per minute) laminar flow, or a **low flow alternative (-LF)** at the rate or 1.32 Lpm/0.35 gpm. Certified to ASME A112.18.1/ CSA B125.1

AC01-005
Optional hand-held programmer
