OTHER FRANKE PRODUCTS
Other Franke Products

Grab Rails
Franke grab rails offer a secure support, thanks to Franke’s Fine-Grip surface finish, for use in private homes and public, clinical and care sectors.

Water Management
Complementing the Franke range of accessories, a new range of self closing/sensor operated basin taps and mixers have been added. The taps and mixers are of a heavy duty design to improve hygiene and decrease water consumption in public ablutions. The range comprises of an electronic sensor operated mixer and self closing taps and mixers.

Hands Free Accessories
Franke always strives to find the ultimate hygiene solutions without compromising quality and durability. The hands free accessories offer a hygienic solution for usage in heavily frequented washrooms, wards and rest rooms. The range includes a sensor operated: soap dispenser, paper towel dispenser and hand dryer.

Filterflow Water Purification Mixer
Discover the unique advantages and health benefits of the Franke Filterflow water filtration system. Designed and fitted with a premium-grade carbon activated cartridge, the Franke Filterflow is a health-conscious and quality drinking water filtration system. The Filterflow dispenses hot, cold and perfectly filtered drinking water. The filtration system has the ability to filter out chlorides, odours and sedimentation from the water, it however does not “strip” the water of its goodness and retains beneficial minerals such as calcium and magnesium - essential for a healthy diet.

Zip Hydroboils & Chillers
Zip HydroBoils are convenient plumbed-in boiling water systems that deliver instant boiling water 24 hours a day. It is a sealed system to provide ultimate hygiene and low electricity consumption. It is steam free and low maintenance. Zip chillers are manufactured to provide chilled water under extreme temperatures. The units are plumbed to provide low operating costs, together with convenience.
Sanitaryware

The use of Stainless Steel as the material of first choice for products in public and semi-public washrooms has become today’s standard for good reasons. This material is robust and, easy to maintain, and therefore is very durable which makes the products economical over the lifetime of the building. Sanitary fixtures that inhibit vandalism and are easy to clean help building operators to keep service and maintenance costs to a minimum.

Practical experience shows that using high-quality materials reduces the staining of products that helps to maintain the appearance of heavily used washrooms. Wash stations and accessories take on a hygienic atmosphere. Thanks to it’s durable and hygienic characteristics, Stainless Steel provides clean and, safe products for public washrooms.
