FRANKE PLUS

January 2024

A story forged in Swiss precision

Our story began at the beginning of the last century as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke.

Since then, we opened up manufacturing facilities all around the globe that led us to become leaders in the kitchen sinks segment, and home solutions altogether. We combine **traditional craftsmanship, precision engineering** and a constant pursuit of **innovation**, the three principles that remain at our core.

This Franke Plus brochure is designed to give the best value options for purchasing Franke products.

Highlighted Product Deals: We offer some fantastic deals on innovative highlight/flagship products.

Sink & Tap Value Packs: Enjoy additional savings by combining some of our most popular sink & tap products into value packs. We have selected a wide range of models, materials and installation types to ensure there is something for every kitchen or utility room. Choose from the Athena or Zurich Chrome taps that are included in the pack or upgrade to a different tap in the chart.

Spot Deals: There are some spot deals on individual taps with 20% off on some of our more premium taps in the range, and don't forget to maximise your discounts by saving on the following items:

- £25 off the functional All-in Accessory kits, which will work with almost any sink.
- Waste disposal units, save over £100 and say goodbye to food waste in your kitchen.
- Remove washing up bottles from the worktop and keep your kitchen tidy, with soap dispensers.

* Requires a separate purchase of an aspiration/recirculating kit.

The best of both worlds with these powerful extractors that have beautifully merged into induction hobs. This clever 2-in-1 solution guarantees maximum functionality and total design freedom. Boasting an easy wipe surface with the grease filter dishwasher safe, and the iron grid of the hood is heat- and scratch-resistant. Move pots from one cooking zone to another without the need of lifting heavy, hot pots and pans thanks to the flush-mounted cover grid.

Waste Disposal Units

Designed to free the kitchen of unsightly and unhygienic organic household waste. Each unit is the essential add-on for ensuring that all Franke appliances and work surfaces remain looking immaculate. Thanks to a permanent magnet motor, Franke Turbo Elite Waste Disposal Units reach high speed in a split second, producing more torque per kilo than any other of its type. Whilst running water through the unit, food waste is instantly liquefied into fine particles that are easily flushed through the pipework system.
