

FRANKE

A man with a beard, wearing a brown blazer over a light blue shirt, is smiling and taking a selfie with a smartphone. He is standing in a modern kitchen with blue cabinetry. The kitchen features a white countertop, a stainless steel sink with a high faucet, and a built-in oven. On the counter, there is a cutting board with bread, a small bowl, and a pot on the stove. The background shows shelves with various kitchen items like plates, bowls, and glasses. The overall atmosphere is bright and contemporary.

Years of experience, yet still as curious as children.

At Franke, we have been looking for new solutions and innovations for over 100 years and our attitude still has not changed. In 1911 we combined traditional craftsmanship, precision engineering and a constant pursuit of innovation, three principles that remain at our core.

A story forged in Swiss precision

Our story began at the beginning of the last century as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke.

Since then, we opened up to the world and inaugurated manufacturing facilities all around the globe that led us to become leaders in the kitchen sinks segment, and home solutions altogether.

The recipe for a healthier future

Our mission is to significantly reduce Franke's environmental footprint through innovative products and services. From designs built with the use of sustainable materials, to efficiency optimisation and waste reduction, we act responsibly throughout our business and beyond for positive long-term impact.

Packaging

Our environmental progress goes beyond emissions, extending to resource use and waste management. We have reduced our use of non-renewable materials: 93.4% of Franke's packaging now comes from renewable sources, compared to 89.9% in 2023.

Our proactive safety-first culture

Safety is one of our top priorities at Franke. We are committed to preventing harm and promoting good health and wellbeing. We put people first and act responsibly, principles deeply rooted in our company values. We also believe safety is everyone's responsibility. As such, we aim to anchor safety and health in our culture, our mindset and our behaviors as pre-condition of how we work. In 2024 we reaffirmed our commitment to achieving zero accidents and launched a new program to drive these efforts. Progress is already evident: our rate of recordable work injuries decreased by 33.1% in 2024 and we expect this to fall further in the coming years.

“ Empowering our employees through our proactive “Safety-first” program reduced recordable injuries by 33%. ”

Patrik Wohlhauser, Franke CEO

Taking care of the environment

Our vision is to reach net-zero greenhouse gas (GHG) emissions across our value chain by 2050 from a 2020 base year. We have established clear goals that support this ambition to contribute to a more sustainable world for our customers, employees, and society. We developed our near-term and net-zero targets in 2023 in line with the Paris Climate Agreement, and they were validated by the Science Based Targets initiative (SBTi) in February 2024, setting a cornerstone in our sustainability journey.

Resources

Reducing our environmental footprint remains our top priority, focusing on both the direct and indirect impact of our business activities on the environment. In 2024 we reduced our Scope 1 and 2 emissions by 6.9% compared to 2023 and installed solar photovoltaic systems at three additional Franke locations, increasing our share of self-generated renewable electricity. In 2024, 64.8% of our electricity consumption came from renewable sources.

Innovation for sustainable Well-living

Our innovations help reduce environmental impact and promote Well-living at home.

Taps

Franke's innovative home water solutions, such as the award-winning Mythos Water Hub, the Maris Water Hub and Vital Multifunctional Taps, help reduce the need for plastic bottles by providing clean, filtered water straight from the tap. The instant boiling water function of the Mythos/Maris Water Hub also helps to reduce unnecessary energy use as customers take only what they need, rather than using a traditional kettle.

Sinks

Franke's sinks ranges are exemplary in terms of usage of sustainable materials such as stainless steel, Fraganite and ceramic that guarantee extraordinary product durability, resistance and long-lasting quality

LowCO₂ Mythos Sinks & Bowls

The Mythos range – MYX Sinks and Bowls – will be crafted gradually over the course of 2026 from LowCO₂ Steel, a premium stainless steel with 60% lower CO₂ emissions during steel production compared to conventional stainless steel used in previous Mythos models.* This reduction is achieved through advanced production technology, replacing traditional blast furnaces with electric arc furnaces that run on 100% renewable energy and incorporate at least 90% recycled scrap.

*Verified through Life Cycle Assessment and independent review.

Hoods and Hobs with K-Link

Designed for efficiency, Franke K-LINK technology creates an intelligent connection between selected induction hobs and hoods. The hood automatically adjusts to the optimal speed based on the hob's requirements, ensuring energy savings and reducing unnecessary noise by setting the ideal suction level.

Hob extractors

Our Hob Extractors, combining an induction hob with an extractor, represent a versatile and high performing solution for our customers. All of Franke's Hob Extractors are highly efficient, featuring energy classes ranging from A+ to A++.

Ovens and microwaves

With A and A+ energy ratings offering multi functions that enable different foods to be cooked in one cycle, and a steam cleaning function that allows cleaning without the need of using harmful chemicals.

Experience our new Showroom

Welcome to Franke's Aarburg Showroom - a place of discovery.

It has been key to bring Franke's new positioning to life in the Aarburg showroom concept, as well as in all spaces applying and adapting the new brand styleguide. The new brand colour palette has been applied to the display, creating a vibrant, fresh and contemporary design combination.

The highlights are our product families: Mythos, Maris and Smart, representing Franke as a full system provider. Within the showroom, there is an open and clear concept that is easy to navigate with demonstration areas in an intuitive setting.

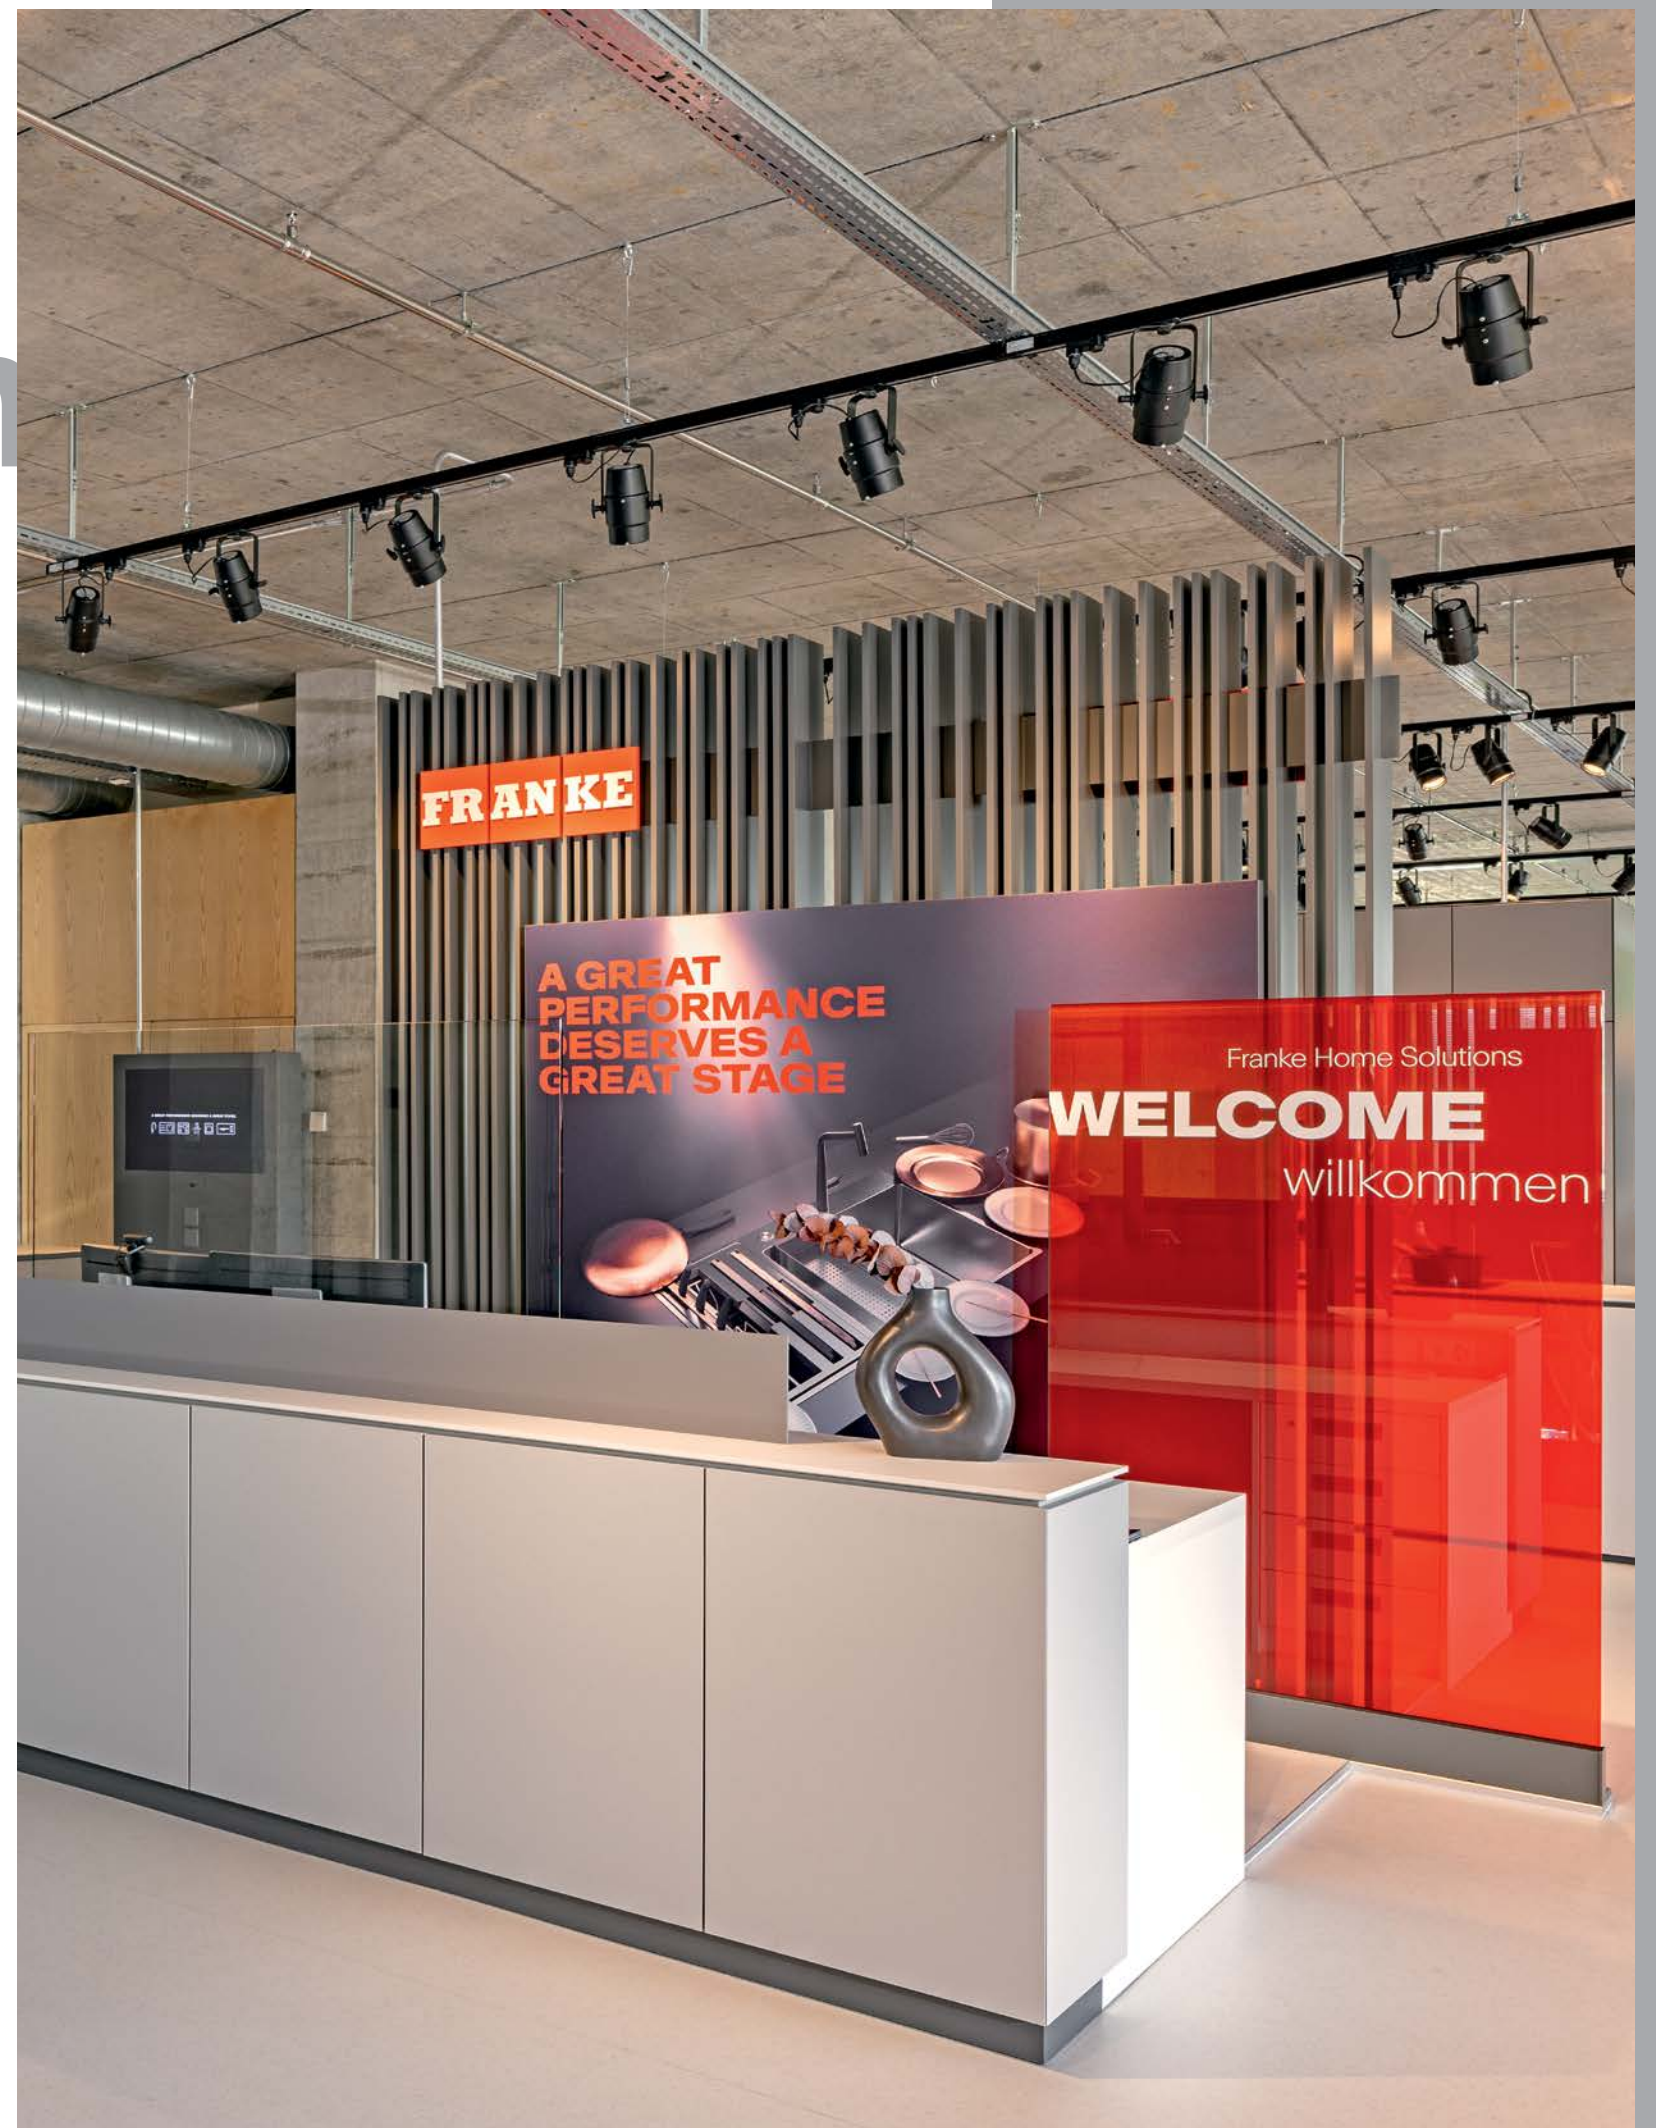

Franke's innovations are brought into the showroom with a superior quality look, tone and feel, elevating to the fullest the brand and products experience.

HOME SOLUTIONS

Solutions that work together

Our kitchens are places to live: we cook there, eat there, spend time together there, more often than not all at the same time. We thoroughly observed the movements we make in our kitchens and developed proper home solutions rather than simple appliances.

Our single products all merge together in functional systems aimed to facilitate your life and please your eye thanks to perfectly matching colours, designs and combinations. When everything comes together, it is easier to enjoy every moment.

Food preparation areas

Taps, sinks and waste management systems.

Award-winning, smart, eco-friendly taps perfectly completed by elegant, spacious bowls that can be equipped with accessories or other smart tools so you have everything you need, always at hand. Everything in the best, most durable and hygienic materials, for example stainless steel or our exclusive Fragranite.

Hoods & Hob Extractors

Wall, ceiling, built-in, island hoods.

Every kitchen has specific needs, so we created a range of hoods able to surprise you with technology, efficiency, lighting and beautiful designs. Discover the available colours, shapes and special technologies from built-in screens to air-purifying systems.

Appliances

Ovens, microwaves and hobs.

When we design our appliances, we do so with your routines in mind, so that we can offer functional solutions that are easy to use, smart in their features and beautiful to look at.

Inspir

There is no place like home. And there are no two homes alike. The way we cherish our own nest is just as unique as we are, each one with different tastes, preferences, and needs. To help you get inspired and create the kitchen environment of your dreams, and enjoy it every day, we developed three different **families** of products.

Mythos

A passion for the best

Our most premium range. Technology meets design, while even the smallest details are carefully sought-after. This **family** sets its goal to the highest levels, combining the very essence of functionality with that of beauty.

Maris

Family in the kitchen

A **family** inspired by families. Cosy and functional, for savouring the heartwarming experience of a **family** get-together. Maris' philosophy is simple: welcome anyone, anytime with the pride and joy of a homemade dinner.

Smart

Straight to what Matters

The simplest things work the best. Essential in its perfection, to jump to what matters the most: bringing joy to your kitchen. A **family** created to fulfill any need and preference.

What your kitchen will look like is up to you, but whatever your way of bringing joy home, **you can count on us.**

Show what you're made of!

Shiny or matt; smooth or stone-like, extra-strong or super trendy. Your kitchen can speak volumes about you, so every detail counts. To offer you the chance to create your very own perfect kitchen, our range of materials is designed to please any taste, match any style and resist any endeavor. Discover each material's precision-engineered character and unique benefits to choose the one that suits your needs the best and you like the most.

Stainless Steel

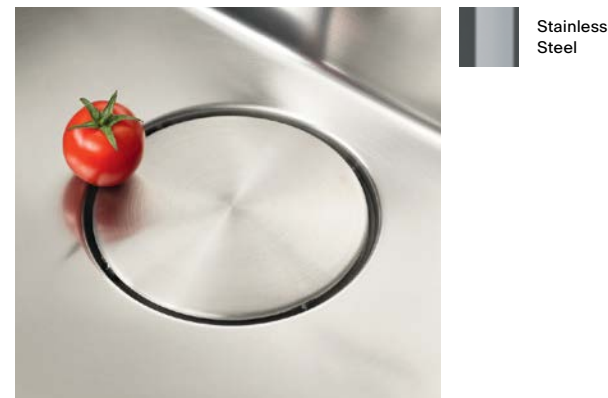

Whether you prefer the more reflective qualities of the polished finish or the more subtle look of the silk or brushed finishes, which give a more matt sheen, there is a Stainless Steel solution for you. Any Franke Stainless Steel product is made from premium quality chrome nickel steel, which looks stunning and is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake, or break. If Stainless Steel is one of the most popular materials in the kitchen, it's for good reason.

LowCO₂ Steel

With Mythos range - MYX Sinks and Bowls - crafted from LowCO₂ Steel gradually over the course of 2026 - you will get timeless design and exceptional durability, with a significantly lower carbon footprint. Every detail reflects our commitment to quality and responsibility, so you can enjoy premium performance while making a conscious choice for the planet. Less CO₂. Same Mythos quality.

LOW
CO₂

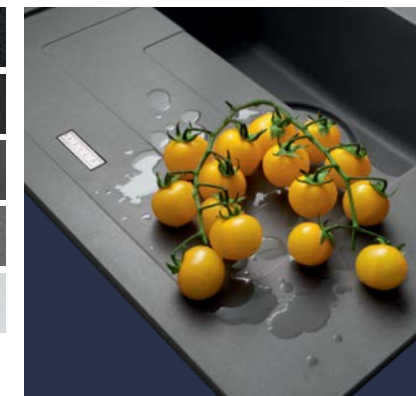

F-Inox Technology

An exclusive Franke coating able to group water molecules together, allowing you to dry your sink without ring stains. Water repellent and scratch-resistant, this futuristic coating also fears no heat up to 100°. A real and long-lasting beauty formula that you can appreciate from our Masterpiece family.

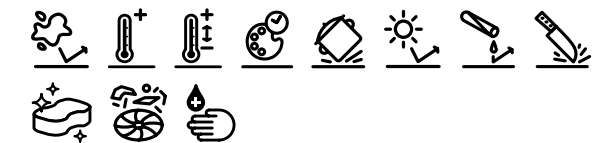

PVD Coating

PVD, standing for 'Physical Vapor Deposition', is a coating technology that makes Stainless Steel tapware even more resistant to abrasions, scratches and corrosion and offers exceptional aesthetic features as well. A tap treated with a PVD coating even resists UV rays and makes fingerprints less visible in a busy kitchen. There are now an array of other stunning finishes to choose from: Industrial Black, Anthracite, Copper and Gold, you really can find something to suit every style of kitchen.

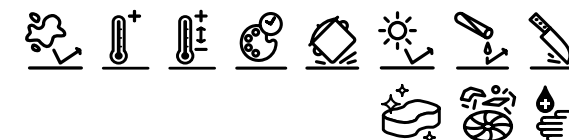

Fragranite

An exceptionally tough material, highly resistant to burns, dents, chips and stains. Pioneered by Franke, it's a unique material with a subtle sheen that is warm to the touch thanks to its close to 80% of quartz sand. The surface is finely textured ensuring high hygiene standards.

Fraceram

Ceramic sinks have a smooth, impervious surface, which stands up to heat, staining, impacts and resist to all standard household chemicals with ease. Ceramic sinks have been a popular choice for years and create a classic combination with a variety of work surfaces such as wood, glass and granite.

The reassurance of purchasing a sink and tap from Franke

Franke sinks are available in a range of materials, including stainless steel, Fraganite, Tectonite and Ceramic. Whichever finish you prefer, you can feel confident your sink and tap will work seamlessly together. And if you're considering a Franke Mythos or Maris Water Hub instant boiling water tap, you can be reassured that all models are fully approved for use with any Franke sink across the range.

It's always been in our heritage to meet your **needs.**

Beautiful and made for real-life use. Steel represents our kitchen ideal.

The sheer quality of Franke products can be seen and felt. We use AISI 304 18/10 steel, which is produced in Italy and Europe: a choice that reflects our dedication to quality, one of our core priorities over the 100-plus years of our history.

Strong and robust, it maintains its brilliance over time, making it the defining feature of the living spaces in which it is installed.

Its superb technical features ensure that it is always in demand, and highly appreciated by professionals in the haute cuisine sector: furthermore, stainless steel is an extremely hygienic material, and is easy to clean and recyclable. Aesthetically pleasing and functional to use: stainless steel really represents quality in shining armour.

Customer Care and Technical Assistance

Our expert team are always on hand to service and repair your boiling water taps, waste disposal units and cooker hoods, both in or out of guarantee.

Offering UK-wide coverage, our technicians can visit any location at your convenience; doing whatever is needed to get things up and running again as soon as they can.

What's more, our consumer care team can provide further After Care service, with spare parts available from our Central Services website.

Guaranteed peace of mind

We're so confident in the quality of our products, that every Franke sink is guaranteed for 50 years, while our waste disposal units are covered for 10 years – more than any other brand.

In addition, all our sinks are fully compliant with BS EN 13310 and all our manufacturing processes are ISO9001 certified.

Franke taps are guaranteed for 1 year on the finish (5 years for Stainless Steel taps) and 5 years on valve mechanisms and working parts. The guarantee on filtered and instant boiling water taps is shown on the relevant page.

Franke Appliances & Hoods are guaranteed for 2 years. The guarantee covers the cost of parts and labour in the event of a breakdown, caused by mechanical or electrical failure of the appliance.

For details on our guarantees visit

Box Pro

Bowls

Streamlined spaces designed
for the craft of food preparation

The Box Pro redefines kitchen efficiency with its professional-grade design and advanced functionality. It offers a refined, modern aesthetic that seamlessly integrates into high-end kitchens. Its standout feature is the integrated ledge on both front and back walls, enabling a versatile three-level usability system for the included food preparation accessories.

Delivering unparalleled convenience and workflow optimisation, the Box Pro is a game-changer for consumers seeking both style and practicality in their kitchen workspace.

Space-saving Design

Replaces the traditional drainer with an additional functional level inside the bowl. Saves valuable worktop space - delivering the functionality of a 100cm sink in as little as 60cm.

Functional Ledges with 3-level Usability

The integrated ledges create three distinct working levels: The bottom of the bowl is perfect for tasks that need manoeuvring space, like washing pots and pans. Its depth ensures ample space for cleaning even large items without splashing. The integrated ledge supports the Rollamat, which acts as a drying rack for dishes or a heat-resistant surface for hot cookware. The rim of the bowl or the cut-out of the worktop accommodates accessories such as the stainless steel Strainer Bowl or maple Chopping Board, allowing you to rinse, drain, or chop directly over the sink. This thoughtful combination of functionality and elegance transforms your sink into a true workstation.

Experience Premium Accessories

Every detail is thought through—the bowl is enhanced by the use of the Rollamat, maple Chopping Board, and stainless steel Strainer Bowl included. These accessories fit perfectly into the ledges, making food prep easier and more enjoyable.

Squared Box Design

The Box Pro Stainless Steel bowls offer a consistent depth of 200mm across all installation types, ensuring optimal performance for food preparation workflows. With two models fitting 60cm or 80cm cabinets, the Box Pro stands out for its perfect balance of functionality and understated elegance, making it a sophisticated centerpiece in any kitchen.

Flexible Installation Methods

Choose from undermount, flushmount, or inset installation for maximum flexibility and compatibility with your worktop.

Box DrainMax Bowls

Effortless efficiency
for your everyday food preparation

Embrace kitchen Well-living with Box DrainMax bowls. While the efficient 7" waste kit maintains perfect water drainage, the Sound Soft Technology delivers peace and quiet, keeping your kitchen equipped for every special gathering.

7" Waste Kit

The 7" waste kit delivers significantly higher water flow for faster, more efficient drainage. Its steel basket with brushed finish and steel top cover ensures better usability and durability.

Hygiene and Safety

The efficient leftovers collector basket is easy to remove and clean, preventing clogging and eliminating unpleasant odours. Maintain a fresh, hygienic kitchen environment effortlessly.

Refined Design

The minimalist box design with R12 radius edges and linear brushed finish. Timeless, contemporary aesthetics that complement any high-end kitchen style.

Premium Optional Accessories

Complete your kitchen system with perfectly matched accessories: rollamat for added workspace protection, maple chopping board for natural food preparation, and stainless-steel strainer bowl for efficient rinsing and draining.

Sound Soft Technology

An advanced noise-reduction technology with strategically placed dampening patches reduces noise levels by up to 10 decibels, corresponding to a 90% reduction of the sound energy, for a peaceful, quiet kitchen even during intensive food preparation.

Versatile Installation

The 3-in-1 installation flexibility: undermount, flushmount, or slimtop adapts seamlessly to your kitchen design and personal preferences.

Dreaming Big

The generous bowl capacity, with dimensions up to 80cm, accommodates everything from large cookware to multiple tasks simultaneously. Available in 50cm, 65cm, and 80cm sizes to fit cabinets from 60cm onwards.

Part of the Mythos Family

Belonging to Franke's premium Mythos family, the Box DrainMax bowls ensure the highest standards of quality, design, performance, and Well-living in your kitchen. They are the perfect partner for the Pescara taps range as they work together to obtain a tranquil atmosphere where conversation can flow naturally.

Kubus 2 Pro Bowls

Streamlined spaces designed
for the craft of food preparation

The Kubus 2 Pro range introduces a cutting-edge evolution in kitchen sink design with its functional ledge concept. This innovative feature enables a seamless three-level usability system for the included accessories, optimising food preparation workflows while saving valuable worktop space. Conceived for high-end kitchens, with its modern minimalistic design, precise edge detailing, and thoughtful accessory integration, Kubus 2 Pro is poised to redefine efficiency and style in the kitchen.

Space-saving Design

Replaces the traditional drainer with an additional functional level inside the bowl. Saves valuable worktop space-delivering the functionality of a 100cm sink in as little as 60cm.

Functional Ledges with 3-level Usability

The integrated ledges create three distinct working levels: the bottom of the bowl is perfect for tasks that need manoeuvring space, like washing pots and pans. Its depth ensures ample space for cleaning even large items without splashing. The integrated ledge supports the Rollamat, which acts as a drying rack for dishes or a heat-resistant surface for hot cookware. The rim of the bowl or the cut-out of the worktop accommodates accessories such as the stainless steel Strainer Bowl or maple Chopping Board, allowing you to rinse, drain, or chop directly over the sink. This thoughtful combination of functionality and elegance transforms your sink into a true workstation.

Experience Premium Accessories

Every detail is thought through - the bowl is enhanced by the use of the Rollamat, maple Chopping Board, and stainless steel Strainer Bowl included. These accessories fit perfectly into the ledges, making food prep easier and more enjoyable.

Squared Box Design

The Fraganite Kubus 2 Pro bowls feature an increased depth of 220mm for insert and flushmount models, compared to the 200mm depth of the undermount models for which the worktop thickness is added. This added depth not only enhances functionality but also enables the innovative three-level usability system, setting a new standard above the typical industry depth of 190mm.

With 2 sizes suitable for 60cm or 80cm kitchen cabinets the Kubus 2 Pro models stand out for their perfect balance of functionality and understated elegance, making them a sophisticated centerpiece in any kitchen.

Flexible Installation Methods

Whatever your kitchen style, these bowls have you covered. Choose from undermount, flushmount, or inset installation for maximum flexibility and compatibility with your worktop.

Introducing the Maris MRG 610-60 Care bowl – a testament to Franke's commitment to inclusive design. Engineered with precision and crafted from Franke's signature Fraganite material, the shallow bowl ensures easy reach and convenience for wheelchair users or anyone that prefers to sit while preparing a meal. In addition its built-in top ledge, designed to facilitate the use of the dedicated accessories, allows a more comfortable and ergonomic food preparation experience for all users – where design meets inclusivity.

Mythos Water Hub

We've gone all-in-one
WATER YOUR WAY

Enjoy all your favourite water experiences in one tap

Sorry, you may need to find new uses for your old ice trays, soda carbonator and kettle thanks to the Mythos Water Hub, an innovative all-in-one home water solution that allows you to easily choose and instantly access your preferred choice of water including instant boiling, ambient, chilled, and sparkling.

For all tastes

With a 6-in-1 design approach, you and your guests have a choice of hot or cold water and four special filtered water functions: instant boiling, chilled, ambient, and sparkling. Water your way is now at a touch of the tap.

Simplicity under the sink

With its multifunctional system and one box compact solution featuring electronic LED indication for intuitive and easy handling, the new Mythos Water Hub can be easily installed underneath the sink, saving space within the kitchen.

Stay connected

A dedicated App enables users to set water parameters of different functions, ensuring a personalised water experience and a more harmonious everyday lifestyle. They can set the boiling water temperature, the carbonation level or the quantity of water dispensed in the continuous flow functions. For extra safety, a Child Lock function can be activated to prevent easy access to the special functions on the tap. In addition, the users can check the system status and order required device consumables.

Healthier home, healthier planet

Due to having filtered and sparkling water readily available, you can reduce the need for plastic bottles in your home by up to 99%. A small switch for a greener future.

reddot winner 2024

Turn the left knob for instant boiling, ambient, chilled, and sparkling water.

Turn the right lever for regular cold and hot water.

Consumables

Pro M Connect Filter
150.0717.797

It prevents limescale formation in the boiler, removes contaminants and stabilises good minerals in the water. The integrated RFID technology* ensures that the Franke device shares a notification when the filter needs to be changed.

*Radio Frequency Identification

Clear Water Connect Filter
150.0722.734

For soft water areas.

CO2 Cylinder

Made in steel and pressurised for safe transportation without loss of gas, and featuring easy turn fixation and release system allowing simple access.

Disinfection kit
112.0699.241

After using the system for some time, depending on the main water quality, the device as well as the app will suggest a system clean using a specific chemical tablet.

To order please call **0161 436 6280** or visit **central-servicesuk.co.uk**

A touch of style

The Mythos Water Hub is designed with a stylish stainless-steel spout and electronic control featuring LED lighting for a stunning aesthetic and maximum ease.

Stand-by

Available to activate with a touch.

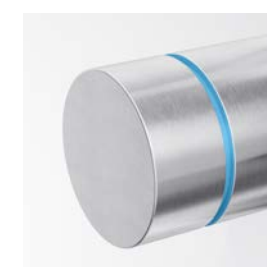

Boiling

Instant filtered boiling water is ideal for preparing hot drinks, such as tea and coffee, and cooking food, saving time and energy.

Ambient

Instant ambient filtered water ensures each glass is pure, safe and delicious.

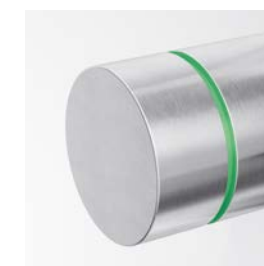

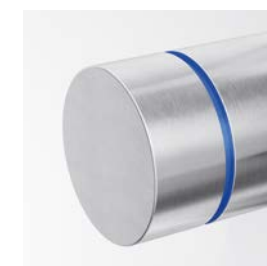

Sparkling

Instant filtered sparkling water, for better digestion and healthy alternative to sugar drinks.

Chilled

Instant filtered chilled water frees up fridge and freezer space while shortening the time to prepare refreshments.

Sparkling medium

Instant filtered sparkling water with lighter carbonation for more delicate palates.

Simply push the electronic control to activate, then turn and select the desired water function, following the colours shown and push and hold to start the water flow. Once you have the amount of water you need, just release the control.

Alternatively, after selecting the desired water function, push the control two times for a continuous water flow of 1L for boiling and 0,5L for the other functions, or three times for 2L for boiling and 1L for the other functions. These water flow volumes can be customised at any time via the dedicated Franke App. The water flow will stop automatically according to the selected water function.

Maris Water Hub

Instant boiling water is now on tap
WATER YOUR WAY

The pleasure of instant boiling water

Why waste time and energy boiling the kettle when you can access boiling water whenever you like? Franke is proud to present the Maris Water Hub, a compact 3-in-1 home water device that instantly serves boiling water at the touch of a tap so you can focus on what matters at home.

Enjoy more kitchen space

Featuring tap, boiler, filter and filter head with a compact design that's easy to install underneath the sink granting you more room above. The tank fits easily beneath a Belfast sink.

Bye bye energy waste

Thanks to innovative design and an A energy rating, the Maris Water Hub boils water in a more efficient way compared to a traditional kettle which involves significant energy usage and potential waste.

The choice is yours

Choose from a mechanical tap with a 4L boiler or an electronic tap with a 4L or 7L boiler. Both versions available with a 1500L filter for maximum convenience.

The look you prefer

Available in Chrome, Decor Steel and Matt Black, as well as Gold, Copper and Anthracite colour variations so any Franke product can be matched and you can create a seamless kitchen aesthetic.

Optional Accessories

Water Hub Extension Kit

112.0752.775

Maris / Mythos Water Hub Extension Kit allowing the boiler to be installed from 50 to 100cm further from the water supply.

4-in-1 Filtration Kit

112.0712.978

Convert your Maris Water Hub into a 4-in-1 home water device featuring an additional stream of filtered water made possible by a hydraulic box that neatly fits underneath the sink.

Combi Mixing Valve

112.0728.340

An optional Combi Mixing Valve. Suitable for either cold feed only or hot and cold feed installation for immediate hot water.

Mythos Masterpiece Taps

Tap into art

Made with functional design, elegant style and maximum attention to detail, the Mythos Masterpiece taps are the perfect complement to your Franke kitchen. Available in three different metallic colours, Anthracite, Gold and Copper with each perfectly matching other Mythos Masterpiece collection elements for the perfect visual harmony in your kitchen.

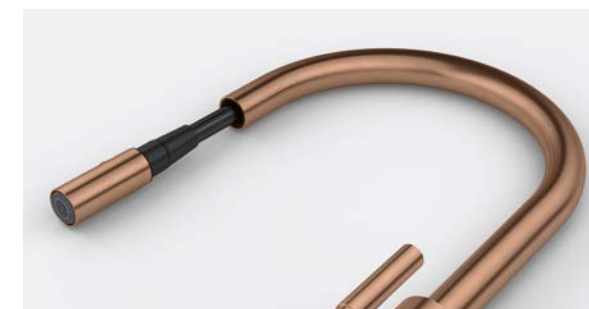

reddot winner 2024

Mythos Masterpiece Pull Down Spray Tap

Not only is each Mythos Masterpiece tap aesthetically pleasing but incredibly functional: the dual spray with laminar stream offers powerful and effective washing even with the most stubborn dirt, and the pull down spray reaches anywhere in the large Mythos Masterpiece BXM bowls for maximum convenience.

Pescara Taps

Sculpting kitchen innovation

Why settle for less when you can have it all in the kitchen? The Franke Pescara Taps upgraded range offers everything you need to create a kitchen that performs as beautifully as it looks.

Two models available: J Pull-Down and Semi-Pro, letting you choose the perfect fit for your kitchen.

Stainless Steel Finish

The J Pull-Down and Semi-Pro models are available in Stainless Steel, offering a seamless, premium look that can be co-ordinated with Mythos sinks, bowls, and accessories.

The Semi-Pro model feature stunning PVD coated springs, combining functional excellence with a curated, elegant design.

Slim Design

The J Pull-Down and Semi-Pro models feature a sleek, refined handle design and are equipped with a 25mm cartridge, making them ideal for modern kitchens and high-performance tasks.

The Pescara taps are designed to align perfectly with Franke Mythos sinks, bowls, and accessories for a cohesive, high-end look.

Seamless Performance

The Laminar Aerator, featured on J Pull-Down and Semi-Pro models, delivers a crystal clear, non-splashing water stream with very low noise for more comfort.

Accurate Precision

The Magnetic Spray Holder available on the Semi-Pro model, ensures secure docking, enhanced durability, and a sleek, hygienic appearance.

Maris Stripes Taps

Design and performance
in every stripe

Elevate your kitchen with Maris Stripes, an exclusive tap range featuring sophisticated design options no other can match. Choose bold Full Matt Black, or explore the unique bi-colour finishes pairing a Matt Black body with elegant PVD Copper or Gold accents. Each design is enhanced with distinctive textured stripes details for a refined, sculptural feel.

Franke Kitchen Integration

Harmonise seamlessly with Maris Fraganite sinks and accessories in complementary or contrasting palettes for a fully personalised kitchen.

Sculptural Textured Stripes Details

Exquisite tactile design on spray head and signature side-mounted lever delivers premium character and sensory distinction.

Intuitive 0°/90° Lever Operation

Seamless installation near back walls without compromising sophistication or functional excellence.

Three Distinguished Silhouettes

J Pull-Down and U Pull-Down for refined daily elegance; Semi-Pro with magnetic spray head holder for professional precision and commanding presence.

Laminar Aerator Technology

Crystal-clear, non-splashing water stream, delivered with very little noise, transforms everyday rituals into moments of effortless grace.

Powerful Pull-Down and Semi-Pro Spray Performance

Precision needle jet spray commands stubborn residues and reaches every sink contour with professional ease.

Magnetic Spray Head Holder on Semi-Pro

Secure, effortless docking maintains sleek aesthetics, superior hygiene, and enduring craftsmanship.

ECO Cartridge

50% step flow delivers water savings with refined, effortless sustainability.

Franke Hob Extractors

Two technologies.
One seamless cooking experience.

What if technology wasn't just about performance, but rather a way to elevate your daily life? Franke Hob Extractors blend pure design, clean air, and quiet power to transform cooking into a shared experience.

Choose from six distinctive models across three innovative collections.

The Mythos 2gether series: Slide, Supreme and Ultra Edge, combines the ultimate in innovation with powerful extraction and minimalist elegance. The Maris 2gether collection: Swing and Ellipse, captivates with a total-glass design that's as beautiful as it is functional. And the Smart 2gether Ellipse brings smart extraction to the modern kitchen.

All models are available in both ducted and recirculatory versions.

Mythos 2gether & Maris 2gether

The Mythos 2gether models express a clean, architectural presence supported by intelligent features, offering the perfect solution for beautiful, high-end kitchens. The Maris 2gether range introduces total-glass surfaces, intuitive controls, and balanced extraction that supports both daily cooking and more social moments in the kitchen.

High-Performance Extraction

All models feature powerful yet quiet ventilation that delivers top-level performance with optimised noise levels, even in demanding cooking environments.

Ghost Effect Control

Invisible when off, intuitive when in use. A hidden control interface that appears only when needed, merging aesthetics and usability for an ultra-clean, minimalist look. (* Models: Mythos 2gether Slide, Supreme, Ultra Edge | Maris 2gether Swing).

4 Induction Zones with 2 Flexi Zones

Maximum cooking flexibility with versatile zones accommodating pots and pans of different sizes and shapes—so you never feel limited during meal preparation. (*Models: Mythos 2gether Slide, Ultra Edge, Supreme | Maris 2gether Swing).

Frameless Design

Seamless kitchen integration with sleek, joint-free surfaces that blend perfectly with modern worktops for a refined, contemporary aesthetic. (* Models: Mythos 2gether Supreme, Ultra Edge, Slide | Maris2gether Swing, Ellipse | Smart2gether Ellipse 70).

Mythos Masterpiece Hoods

The art of extraction

Elevate your kitchen ambiance with the Franke Mythos Masterpiece collection, now featuring two exceptional hoods: island and wall mounted. Both crafted to captivate with their contemporary design and profiles available in three striking finishes: Anthracite, Gold, and Copper.

Suspended Design

The Suspended Hood is perfect for those looking to make a bold statement. This island hood transforms itself into a centerpiece thanks to the elegant decorative ring and unique design. Designed with practicality in mind, it comes with durable, long-lasting charcoal filters that ensure consistently clean air.

Wall Design

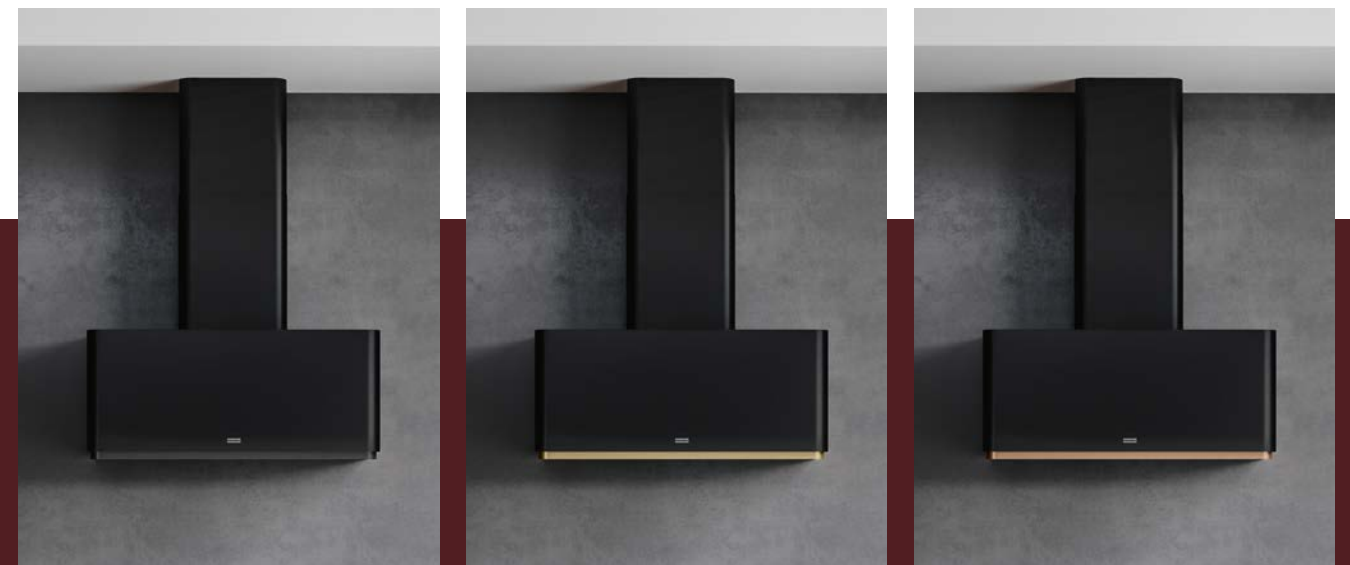

The Wall Hood is a minimalist's dream, seamlessly blending into modern kitchens with its streamlined design. The innovative handle-free filter, designed for extremely easy handling, perfectly matches the colour and material of the entire hood. Beyond the hood's striking looks, it offers exceptional practicality. Thanks to its flexible installation options, it supports both duction and filtering setups and can be paired with a matching chimney for an even more seamless, cohesive look.

Innovative Lighting

Both hoods feature advanced lighting systems with dimmer and tunable white functions. The Wall Hood includes an LED stripe, while the Suspended model offers a full light panel, giving you freedom to choose between task lighting for cooking and soft ambient light for a cozy atmosphere.

Sophisticated Connectivity

Featuring K-Link connectivity, these hoods effortlessly synchronise with your Masterpiece hob, delivering perfect ventilation control for an unparalleled cooking experience. Each hood boasts a unique design and offers decorative profiles in three striking finishes: Anthracite, Gold, and Copper.

Mythos Air Hub

The purest air in the universe

An extractor hood and air disinfection system all in one. When you think of clean air in your kitchen you usually think of cooking odours, which our Air Hub range removes quickly and effectively, but you rarely think of other polluting elements. Thanks to two separated air streams and two dedicated UV-C lights, the Air Hub hoods remove 99.99% of viruses and bacteria from your kitchen, leaving the air nice to smell and safe to breathe.

With our Air Hubs, clean air is served.

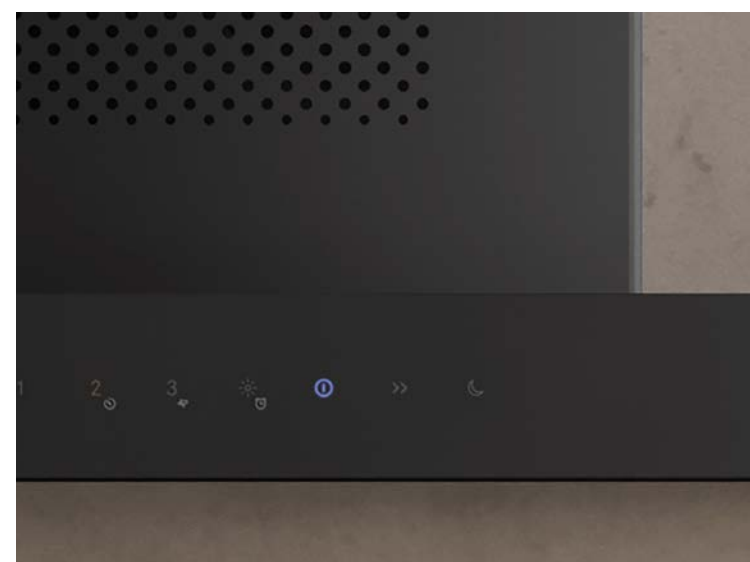

Energy efficient and powerful

Thanks to their energy efficiency, our hoods have an eye for the environment, but they do not give up on efficiency, thanks to their powerful blowers.

No ozone production

As confirmed by the University of Siena's laboratories*, our Air Hub removes up to 99.99% of viruses and bacteria thanks to UV-C lighting, with no ozone production and in total safety.

Air purification function

① MANUAL

Start the purifying of the air. You can switch off manually, or it will automatically switch off after 24 hours

>> INTENSIVE

Maximum speed of purifying in the shortest possible time. Switches off automatically.

🌙 NIGHT

Long cycle for complete purification with the minimum level of noise. Automatically switches on each night.

AQ Sense Range

The hood every home deserves.

Keep clean the air you breathe

The entire range of our AQ SENSE hoods feature an air quality sensor to constantly monitor VOCs (volatile organic compounds), air temperature and humidity and are designed to activate automatically when unsafe levels are detected. Furthermore, through the Franke@home app, you can receive real-time and constant information on the quality of the air in your kitchen. The same app also allows you to control the hood's functions via any mobile phone or tablet: turn on and off, adjust the suction speed or adapt the light settings to create a perfect environment.

Constantly monitors VOCs (volatile organic compounds), air temperature and humidity

A hood with a view*

Enjoy a 21.5" display and browse the web.

Auto function

Save energy: the suction speed will automatically start at the right level for what you are cooking and it will work until the air quality reaches a satisfactory level.

Multiple timer*

Keep track of time! And manage more than one timer at a time.

Voice control** compatible

Control your hood with just your voice! Perfect for when your hands are busy preparing and cooking your favourite dishes.

Your photos*

Enjoy your family moments on the wide screen and personalise your hood's background.

Touch Display*

In addition to keeping you constantly informed on air quality, it also allows you to easily control the hood, having its numerous Hood Features at your fingertips.

Built-in browser*

Browse the web to find the best recipes, listen to your favourite music, check on the weather or the news and get access to a world of online content

Dimmable light*

Adjust the intensity of the light and temperature to create the perfect ambience.

Camera*

Link your Wi-Fi camera and keep everything under control.

Available models:

Mythos T-Shelf Evolution

The highlight of your kitchen

Looking for the perfect combination of a suspended hood and chandelier? Then our Mythos T-Shelf Evolution is the answer. This eye-catching design is tailored for home lovers seeking a warm and cosy kitchen atmosphere without compromising on functionality. All the light you need can be provided by its two 80cm full light panels; the elegant smoke-grey glass shelves will give you more space for organisation while the equipped K-LINK technology offers a seamless cooking experience. Tunable and dimmer functions allow to control the light's brightness and temperature, helping to set the mood for different activities.

Elegant Fusion

An eye-catching design without compromising functionality.

Seamless Cooking

Advanced K-LINK technology allows for a seamless cooking experience.

Showcase in Style

Enjoy beauty, functionality, and organisation with smoke-grey glass shelves.

360° Usability

Smart positioning of user interface and lighting features.

Convenient Control

Full light panels via touch control and with a remote.

Enhance the Mood

Create the exact ambience with dimmer and tunable functions.

Ambient Glow

Two 80cm full light panels and Matt Black finish create a striking look.

Waste

- 314 Additional Accessories
- 315 Waste Sorter Bins
- 316 Waste Disposal Units

Management System

Additional Accessories

Franke innovation doesn't end with sinks and taps.

We strive to make your life easier in every aspect of your kitchen with a range of convenient and practical kitchen solutions. From dealing with unsightly household waste in a hygienic manner to effortlessly sorting waste for recycling, they are designed to save time and to incorporate kitchen essentials discreetly into kitchen units, so that you can maintain a clean, uncluttered kitchen.

Tap Brace

Connects the tap to the worktop for extra support Variable collar fits on any model of tap. Can be used on any stainless steel inset sink.
FUN 133.0026.896

Waste Bin

Inset stainless steel system with a 12 litre polyethylene container. Sits flush with worktop with cover to keep odours sealed inside.
FUN 134.0035.042

Waste Disposal Unit Extended Flange

An extended flange is available from service agents at extra cost if required when fitting to ceramic sinks.
Please note:
Overflow connector required when fitting WDU in main bowl
FUN 112.0489.809

Note: WDU Chrome Airswitch Button supplied with all Continuous Feed Waste Disposal models. Decor Steel, Matt Black, Anthracite, Copper & Gold Airswitch Button now available as a spare from www.central-servicesuk.co.uk

Waste Sorter Bin

Fitting neatly into most standard cabinets, Franke Waste Sorters feature separate plastic containers to sort domestic waste into different categories such as food, cans, plastic and paper. A lid closes over the bins to contain any odours. Franke Waste Sorters are the convenient alternative to the conventional waste bin.

Standard door systems

The Franke 300 Series Sorter Systems are a useful addition to any kitchen with standard doors, fitting neatly into 450mm and 600mm kitchen base units. Each bin has a handle that can also be used to secure waste bags. The roll-out carrier is fully waterproof, simple to dismantle and easy to clean.

Elite Slimline Food Waste Disposers

Cook like a chef, grind like a master

Clean up after mealtimes as skillfully as you prepare them thanks to the new Franke Elite Slimline range of food waste disposers. Each is designed to be a daily family assistant, helping to manage food waste easily, reduce risk of germs and odours, and offer a more sustainable approach to everyday kitchen life.

A powerful performance

Thanks to innovative Twist Force technology that offers exceptional grinding power, you can expect fast and efficient results without jamming. A hygiene safeguard also fights against the growth of bacteria and unpleasant odours with its antimicrobial protection.

Details that deliver

Each waste disposer features a high-flow splash guard ensuring the grinding chamber is left clean, Sound Soft Technology for noise reduction, and a strong Magnetic Rim on selected models to attract kitchen utensils and other miscellaneous metal objects.

Elegance under the sink

Thanks to a 3-Bolt Mounting System that makes it compatible with all Franke sinks and bowls that feature a 3 1/2" waste hole, and an elegant-shelled body which is designed to save maximum space underneath the sink, each Elite Slimline Waste Disposer is a refreshing piece of Franke innovation that is a welcome addition to any kitchen.

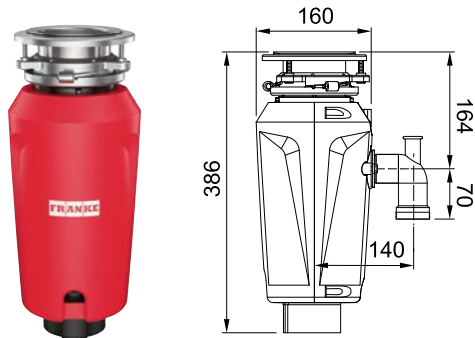

Meet the range

SLIM 125

1.25 HP Disposer
134.0715.435

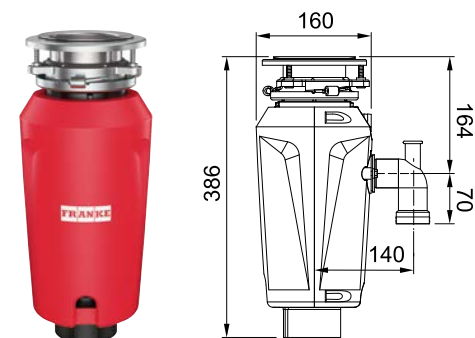

Horsepower: 1 1/4 • Feed: Continuous • RPM: 2800 • Hygiene Safeguard Flange • Sound Softening Insulated Shell • Stainless Steel Grinding Chamber • Twist Force Balanced Grinding Sytem • Jam Resistant • Cast Impellers • Antimicrobial Removable Splash Guard • Magnetic Rim • 3-Bolt installation • Integrated Air Switch Connection
