**IT'S ALL
ABOUT THE
MOMENT**

when your coffee becomes happiness to go.

Your customers have little time, but high expectations.

Even when your customers are in a hurry, they expect a variety of coffee beverages in different flavors - in consistent high quality, also for takeaway. With our innovative and reliable coffee solutions, which are constantly evolving, you can meet your customers' demands time and time again.

Offer premium beverages and create exceptional, personalized coffee moments. Rely on our market-leading coffee solutions based on state-of-the-art technology. Easily exceed your customers' expectations and increase your employees' work pace. This is the ultimate way to stand out from competition.

Our goal: to develop your business together with you.

We help you meet the demands of your busy customers. No one knows better than we do how to quench your guests' thirst for coffee in no time. Our expertise combined with our experience in delivering high quality at a fast pace makes us your partner of choice. Rely on our efficient solutions and on our customer service to provide your guests with the best coffee experience, even on the go.

Increase customer loyalty through shorter wait times

As a company that offers exquisite coffee, you face tough competition from specialty cafés and convenience stores. Turn every coffee - even takeaway - into a memorable experience. Our solutions will also thrill your employees. If you partner with us, we'll be there for you at any time and with any challenge.

IT'S ALL ABOUT THE MOMENT

The world we live in is turning faster and faster. But that doesn't mean we should spend our coffee treats in a rush. At Franke, everything is designed to maximize the pleasure of enjoying high-quality coffee, even on the go. Whether you have a whole group or just one customer in line, we'll help you give your guests the best coffee moment of the day.

For your guests as well as your staff, even a short visit can bring great joy. We help your team optimize tasks and time so they can focus on delivering a unique experience to every customer. Offer coffee enjoyment with the best service and highest quality in every cup. This naturally increases customer loyalty and profitability.

Fast, efficient and above all: delicious.

Even if your staff needs to work quickly, there can be no compromise when it comes to interacting with your guests. We support your team with the most intuitive and reliable coffee machines so they can focus on creating meaningful moments for your customers - at an efficient pace.

Operate your coffee machines with ease

Thanks to intuitive user interfaces your staff can easily operate our coffee machines. They are also easy and quick to clean and maintain.

Increase sales with consistent in-cup-quality

Thanks to our iQFlow™ technology, you can define your signature taste while consistently ensuring high in-cup quality. This way, your customers will experience outstanding coffee moments in your restaurant time and time again - and will be happy to come back. Simply define and set your individual, consistent aroma profile and make it the calling card of all your restaurants.

Serve your customers efficiently

Let your employees focus on face-to-face interactions with customers, safe in the knowledge that your coffee machine is preparing the perfect cup of coffee in the meantime. Less time spent at the machine means more time for customers.

Reduce changing costs

Our coffee machines are built on the same platform and share the same user interface and design. That's why you can mix and match our machine options and add-on units as you wish. This versatility is a core element of our design philosophy. It ensures that you have full freedom of choice and cost efficiency at the same time. Most of our coffee machines even share the same dimensions. You can smoothly set up additional machines or switch to another Franke model without spending a lot of time and money on adapting your interior or training your staff.

Work with a partner you can always rely on

We know running a business means you don't have time for coffee machines to let you down. Our Swiss-manufactured machines ensure reliability and operational efficiency. Don't worry about the coffee - it will always flow.

All you need to support your business with great coffee: a smart machine.

Increase your potential with Franke Digital Services. Our end-to-end solution uses the Internet of Things (IoT) to improve the quality of your coffee, enhance your customers' experience and increase your profits.

Know more and keep everything under control

Connect your coffee machine fleet to our cloud and get access to critical commercial and operational performance data. Understand what's being sold and when, and make sure ingredients are always fresh and in stock.

Increase uptime

Reduce on-site visits thanks to remote monitoring and virtual support. Our technicians always know the health status of your coffee machines. This enables them to prepare optimally for their next visit and to increase the first-time fix rate.

Go further

We support you in the introduction of customer loyalty programs and mobile payments in your coffee business. This way you can offer your customers an even better experience.

At Franke, we know your customers' needs are constantly evolving. Thanks to our Digital Services, you'll always be ready for what's next.

One thing matters as much as serving coffee: serving you.

Choose Franke and you choose a partner you can rely on every step of your journey. We are always there for you so that you can always offer your customers the highest quality.

Count on our customer service

Our coffee machines are built to last. However, should you need assistance, our in-house service staff, our certified partners and our worldwide service network are ready to support you with any challenge.

Start the experience

Let our technicians program your coffee machine according to your needs and take advantage of our staff training courses. Learn all about our solutions and ensure a perfect experience - for your staff and your customers.
