

FRANKE

COLLECTIONS

Show what you're made of!

Shiny or matte; smooth or stone-like, extra-strong or super trendy. Your kitchen can speak volumes about you, so every detail counts. To offer you the chance to create your very own perfect kitchen, our range of materials is designed to please any taste, match any style and resist any endeavor. Discover each material's precision-engineered character and unique benefits to choose the one that suits your needs the best and you like the most.

Stainless Steel

Whether you prefer the more reflective qualities of the polished finish or the more subtle look of the silk or brushed finishes, which give a more matt sheen, there is a Stainless Steel solution for you. Any Franke Stainless Steel product is made from premium quality chrome nickel steel, which looks stunning and is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake, or break. If Stainless Steel is one of the most popular materials in the kitchen, it's for good reason.

FrAGRanite

Kitchens can be a critical location for spreading bacteria and demand special attention to hygiene. FrAGRanite sinks, made by Franke, are known for their non-porous and hygienic properties.

FrAGRanite's non-porous nature prevents bacteria and grime from accumulating in the surface, promoting a cleaner and more hygienic environment. The finely textured smooth surface makes it simple to wipe away spills and debris, further contributing to a hygienic sink.

- 180 Degree spout swivel.
- Water efficient 12L per minute flowrate.

Connection dimension: DN 10.
Connection type: G 3/8 " connection

Flowline

NEW

Matt Black

Product Code: 1150069
Finish: Stainless Steel with a
Matt Black powder coating
Type: Swivel

- Matt Black coated, durable & anti-corrosive 304 stainless steel.
- Ceramic disk cartridge with anti-scald.
- Water efficient 12L per minute flowrate.

Connection dimension: DN 15
Connection type: G 1/2 " connection.

Stainless Steel

Product Code: 1150068
Finish: Stainless Steel
Type: Swivel

- Durable & anti-corrosive satin 304 stainless steel construction.
- Ceramic disk cartridge with anti-scald.
- Water efficient 12L per minute flowrate.

Connection dimension: DN 15
Connection type: G 1/2 " connection.

Highrise

Chrome

Product Code: 1150019
Finish: Chrome
Type: Swivel Mixer

- Solid DZR brass construction.
- Ceramic disk cartridge with anti-scald.
- Water efficient 12L per minute flowrate.
- Smart lime cleaning aerator .

Connection dimension: DN 15
Connection type: G 1/2 " connection.

Matt Black

Product Code: 1150043
Finish: Matt Black
Type: Swivel Mixer

- Solid DZR brass construction.
- Ceramic disk cartridge with anti-scald.
- Water efficient 12L per minute flowrate.
- Smart lime cleaning aerator.

Connection dimension: DN 15
Connection type: G 1/2 " connection.

Capella Wall Mounted

NEW

Stainless Steel

Product Code: 1150056

Finish: Stainless Steel

Type: Wall Mounted

- Strong, durable & anti-corrosive satin 304 stainless steel.
- Ceramic disk cartridge with anti-scald.
- Water efficient 12L per minute flowrate.

Connection dimension: DN 15

Connection type: G 1/2 " connection.

Projectline V2

NEW

Chrome

Product Code: 1150021-002

Finish: Chrome

Type: Swivel Mixer

- Solid DZR brass construction.
- Ceramic disk cartridge with anti-scald.
Water efficient 12L per minute flowrate.

Connection dimension: DN 15

Connection type: G 1/2 " connection.

WASTE MANAGEMENT

Franke Turbo Plus TP-75 Waste Disposal Unit

24
MONTHS
WARRANTY

Product Code: 1340005

Stainless steel grinding components.
Professional 3-bolt mounting system.
High Torque dual magnetic motor.
3/4HP, 2700 RPM motor.
Integrated Air Switch.
Sound insulated shell.
Easy to install.
Continuous feed.

with Air Switch

Franke Turbo Plus TP-75
Waste Disposal Unit

Electrical Certification: IEC 60 335-2-16

Plumbing Kits

12
MONTHS
WARRANTY

Franke Spazi plumbing kits are designed to assist in optimising the underside of the cabinet space and in many cases provide for better utilisation of under-sink storage.

Franke Spazi plumbing kits are made from rigid grey polypropylene and are the ideal hygienic solution to a Franke sink waste system. Spazi plumbing kits have a manifold with an incline and an air vent for faster water disposal. The relevant plumbing kit is shown with each sink throughout this brochure.

Spazi F/1
Single Bowl
Product Code: 1120008

Spazi F/2
Double Bowl
Product Code: 1120009

Spazi Conversion
(2 to 3) & Spares Kit
Product Code: 1120094

SOAP DISPENSER

SD80 Soap Dispenser

Product Code: 2120059

Manufactured from chromium plated brass
Incorporates a refillable 1 Litre polyethylene
container for use with liquid soap.
12 Month Warranty on Body Construction.

Wash Trough

Dimensions: 540L x 370W mm
Bowl Dimensions: 483L x 330W x 240D mm
Product Code: 2560007

Cleaning & Maintenance

CLEANING INSTRUCTIONS FOR FRANKE STAINLESS STEEL RANGE OF SINKS

INOX CREAM

Product Code: 1120047

250g Inox Cream: cleans, shines, polishes and revitalises Stainless Steel

Cleaning procedure

Clean the Stainless Steel as often as experience dictates (i.e. when noticeably dull or dirty) and use the simplest cleaning procedure that will effectively "do the job".

- Stainless Steel reacts best to clean water or mild detergent solution, applied with a soft cloth or sponge, rinsed well and wiped dry.
- Routine, simple, gentle and inexpensive cleaning will retain both the corrosion resistance and appearance of Stainless Steel through years of exposure and use. Occasionally a small amount of Inox Cream may be used on a soft, damp cloth with the detergent solution to remove stubborn dirt or slight incipient stains. Rub gently.

Cleaning do's

- Employ regular routine cleaning rather than an occasional aggressive single cleaning.
- Only use propriety brands of cleaners that state "SUITABLE FOR STAINLESS STEEL", such as Inox Cream.
- Always rinse and dry as the final step in a cleaning procedure.

Cleaning don'ts

- Do not use coarse abrasive powders.
- Do not use metallic scourers or brushes with metal bristles.
- Do not use the so termed "silver cleaners".
- Do not use acids (except nitric acid in specific instances).

WARNING

Storage of products

Product research has proven that certain household products which are commonly stored underneath a sink, will lead to damage of the sink's base. Chlorine is the major culprit and can be found in: chlorine for swimming pools; household bleach; bathroom cleaning products such as toilet cleaners, mildew treatments and tile cleaners; kitchen cleaning products - especially liquid cleaners; powders for dishwashers and laundry detergents. Preserve the life and beauty of your sink by storing these products away from the sink area in a well ventilated cupboard that is preferably child-proof. Storing these products under your sink will void your warranty.

The space under your kitchen sink is not only dangerously accessible for children and pets, but harsh chemicals like toilet cleaners, detergents and chemicals can cause even the highest grade of stainless steel sink to corrode. We recommend storing your cleaning products on the top shelf of a laundry room, in your garage or in a well-ventilated locked closet.

Scan to view more on cleaning and care for your Stainless Steel, Fraganite or Tectonite sink.

HOW TO DRILL A TAP HOLE IN STAINLESS STEEL

When drilling a tap hole DO NOT use a hole saw as this will damage the sink and could cause rust spots from the mild steel hole saw. The correct method is to make the tap hole in your sink is to use a chassis punch.

HOW TO DRILL A TAP HOLE IN FRAGRANITE

The correct method is to make the tap hole in your sink is to use a diamond drill bit.

A diamond drill bit is supplied with the Ronda prep bowl range as well as the Maris double bowl sinks.

Warranties

FRAGRANITE SINKS

10 years against manufacturing defects.

STAINLESS STEEL DOMESTIC KITCHEN SINKS

25 years against corrosion from date of purchase (*except SA94 sink).
