

Maris Water Hub 3-in-1 Electronic Dsteel | 160.0709.047

A 3-in-1 tap available in elegant Decor Steel that delivers, cold, hot and 100°C filtered boiling water, all from a minimum water pressure of 1 bar. Performance features include: Electronic control provides peace of mind that boiling water cannot be activated inadvertently. | The innovative eco-cartridge reduces both water flow and energy, which contribute to lower running costs. | The Pro-M filter supplied uses Ion exchange resin, which improves taste, and protects the system from a build-up of waterborne deposits, that affect both performance and efficiency. | Compatible with the 4-in-1 filtration kit upgrade, which supplies cold, filtered water.

Product specifications

Type of aerator	Laminar
Approval logo	UKCA
Boiler max. temperature	98°C
Boiling water capacity	4.0
Boiling water flow rate	4.5
Product brand	FRANKE
Cartridge dimension	35 mm
Child safe operation	no
Cold start	no
Colour	Decor steel
Description of the filter	PRO M
Device depth	229.0
Device height	340.0
Device width	229.0
Electronic	Light and push button
Energy label	A
Filter included	yes
Filter max life (litres)	1700.0
Filter max life (months)	12.0
Filter performance	Limescale
Filter performance	Microplastics
Filter performance	Pesticides
Filter performance	Hormones
Filter performance	Pharmaceuticals
Filter performance	Rust and sediments

Filter performance	Odour
Filter performance	Chlorine
Filter performance	Heavy metals
Filter performance	Bacteria
Filter performance	PFAS
Filtered ambient water	no
Filtered boiling water	yes
Finish	Decor steel
Fixation type	Shank
Franke Home APP connection	no
Handle operation	0/90
Water supply hose connection	3/8"
Water supply hose length	550 mm
Type of material	Stainless steel 304
Max power consumption	1650.0
Type of multifunctional system	Electronic Boiling 3in1
Mix water flow rate	6.8
Model range	Maris Water Hub
Tap operation	Side lever
Pressure	High pressure
Product category	Filtration system
(Re)heat time boiler	15 minutes
Spout version	J - spout
Product family	Maris
Tap height	388.0
Tap rotation	180°
Tap hole diameter	35 mm
Type filtration	Active carbon
Type of operation	electronic
Version	Swivel spout
Voltage	220-240 V
Eco water saving	Yes
Properties	
Capacity water tank in litre	4 L
Tank material	Heating tank-stainless steel
